Solution Builder

Add almost limitless customisation ability to your Attaché/PowerLink system.

- Add tables and databases linked to your Attaché / PowerLink data; eg employee training history
- Create custom fields and screens to meet your data-entry requirements
- Automatically send emails when events happen, eg when a low-margin order is entered
- Send and receive files via the Internet, eg upload pricing to your website

Financial Controller

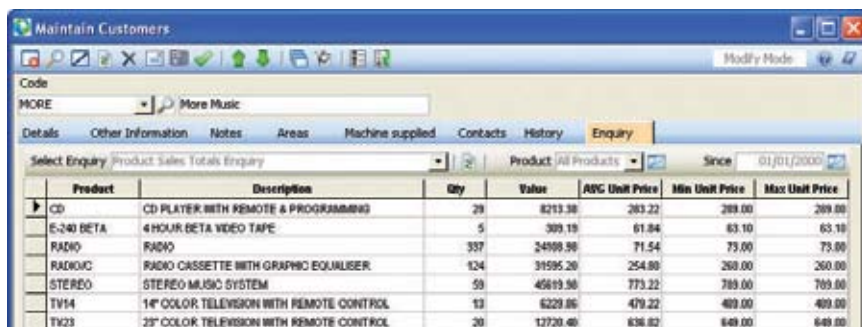

Archive monthly reports and check your Attaché reconciliation at a glance.

- One screen shows any variances — no need to post to General Ledger first
- Check your Attaché reconciliation at any time to monitor problem areas
- All checking reports (Aged Trials etc) can be accessed from one screen

Cash Flow Forecaster

Generate an accurate month-by-month cash flow report.

- Create a cash flow budget using historical data, Attaché budget or copy from a spreadsheet
- Enter timings for each account to reflect cash movement, eg 60-day debtors
- Produce summary or detailed cash flow reports
- Automatically convert reports to PDF format or send to Microsoft Word / Excel
